

## Sixth Form Pastoral Leadership Team

- Director of Sixth Form, Laura Maw
- Head of Sixth Form, Fiona Nodwell
- Head of Year 12 2026-2027, Glenn Selwood
- Applications inbox, [post16applications@st-pauls.org.uk](mailto:post16applications@st-pauls.org.uk)

## Things to consider

- We offer the opportunity to take English and Maths GCSE again for all students who do not secure a standard pass (grade 4) at GCSE.
- Add the EPQ if you are on the Excellence & A Level only pathway and plan to go to university in the future. Universities value the qualification and it allows you to study a particular area in greater depth.
- Add Maths Studies if you are on any of the Level 3 programmes that have an element of Maths content (and you are not studying A-Level Maths).
- Add Maths Studies as a valued qualification by universities and future employers.
- NEA 100% - look out for this symbol, because this indicates that the qualification includes coursework (non-examination assessment: NEA).
- Consider “families” of subjects. It is often very good to study subjects that complement each other.

**Finally: make sure you are choosing courses in the Sixth Form that interest you and that you will meet the entry requirements for.**

## Excellence Pathway

*Average grade 7+ across 8 subjects*

This pathway is designed for students who probably want to progress to higher education at Oxbridge or Russell Group universities. Students will study 3 A-levels. In addition all students will also study either mathematical techniques or EPQ and they will be part of the academic excellence mentoring programme. Students need to have achieved an average grade of 7+ across 8 subjects and meet subject specific entry requirements.

## A level only Pathway

*Average grade 4+ across 8 subjects*

This pathway is designed for students who probably want to progress to higher education or degree level apprenticeships. Students will study 3 A-levels. In addition most students will also study either mathematical techniques or EPQ. Students need to have achieved an average grade of 4+ across 8 subjects and meet subject specific entry requirements.

## Blended academic Pathway

*Average grade 3+ across 8 subjects*

This pathway is designed for students who probably want to progress to higher education or degree level apprenticeships. Students will study a blend of AAQs, legacy vocational qualifications, or A-levels. Some students may chose to study mathematical techniques too. Students need to have achieved an average grade of 3+ across 8 subjects and meet subject specific entry requirements.

## Vocational and AAQ Pathway

*Average grade 3+ across 8 subjects*

This pathway is designed for students who probably want to progress to higher education, degree level apprenticeships, apprenticeships, or employment within a specific sector. Students will study a blend of AAQs and legacy vocational qualifications. Students need to have achieved an average grade of 3+ across 8 subjects and meet subject specific entry requirements.

## Level 2 Pathway

*Average grade below 3 across 8 subjects*

This one year pathway is designed for students who need a little more time to pass their GCSE in English and/or maths. Alongside this students will study a level 2 vocational course in either Science, Business or Creative Media.

## A-levels - average grade 4+ across 8 subjects

OA	OB	OC	OD	OE
Art	Biology	Biology	Design: Engineering	Chemistry
Business Studies	Business Studies	Drama	Design: Fashion & Textiles	Computer Science
English Lang/Lit	Chemistry	English Literature	Economics	Economics
