

Ministerium Tuum Imple Love | Serve | Do the best that is possible

Sixth Form

“

The school motto of 'Love, Serve and do the best that is possible' is at the heart of all we do in Sixth Form. We aspire for our pupils to embody our motto, not just whilst in the Sixth Form but in their life beyond.

Welcome

Welcome to St Paul's Sixth Form.

The words of St Paul, on which the Mission of the school is based, mean that we are committed to the care of young people and the success of every young person in a way that is rooted in the values of the gospel.

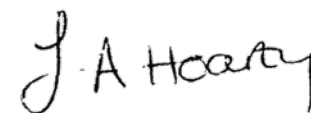

We expect students to set themselves high standards in their work, their extra-curricular activities and their relationships with others.

We challenge them to do so and support them so that they will achieve. We do this to enable them to make the most of the opportunities offered by St Paul's and to lay the foundations of success and personal development.

Sixth Form students at St Paul's benefit from a wide range of courses, staff who have rigorous expectations and who help young people to achieve them, and rates of progress over several years place St Paul's in the top 10% of all post-16 providers in the country. Students are encouraged and prepared to apply to demanding courses at universities, including Oxbridge, as well as more directly to the world of work through apprenticeships and training programmes.

In the Sixth Form at St Paul's each student is in the fortunate position of having a well equipped, modern school and we are determined that St Paul's will be second to none in the quality of its staff, curriculum, teaching and learning.

We work with students in developing the gifts they possess, whatever they may be, so that they are well prepared to take their place in the adult world confidently.

Jo-Anne Hoarty
Headteacher

Ministerium Tuum Imple (2TIM 4:5)

St Paul wrote these words to his disciple, Timothy, when he was in prison at the end of his life. In using them he passed on a mission as a follower of Jesus Christ to Timothy and to us.

Its meaning gives us two words and a phrase that are the basis of life and work at St Paul's:

Love. Serve. Do the best that is possible.

We are a Catholic school in which we all love, serve and do the best that is possible. We strive for academic excellence in all that we do.

Academic Excellence and Personal Development

Our Sixth Form community is rooted in love - where every student is included, valued, supported and encouraged to flourish both academically and personally. All students are provided with opportunities and experiences that will allow them to become the best version of themselves, ready to succeed and take their place in the world.

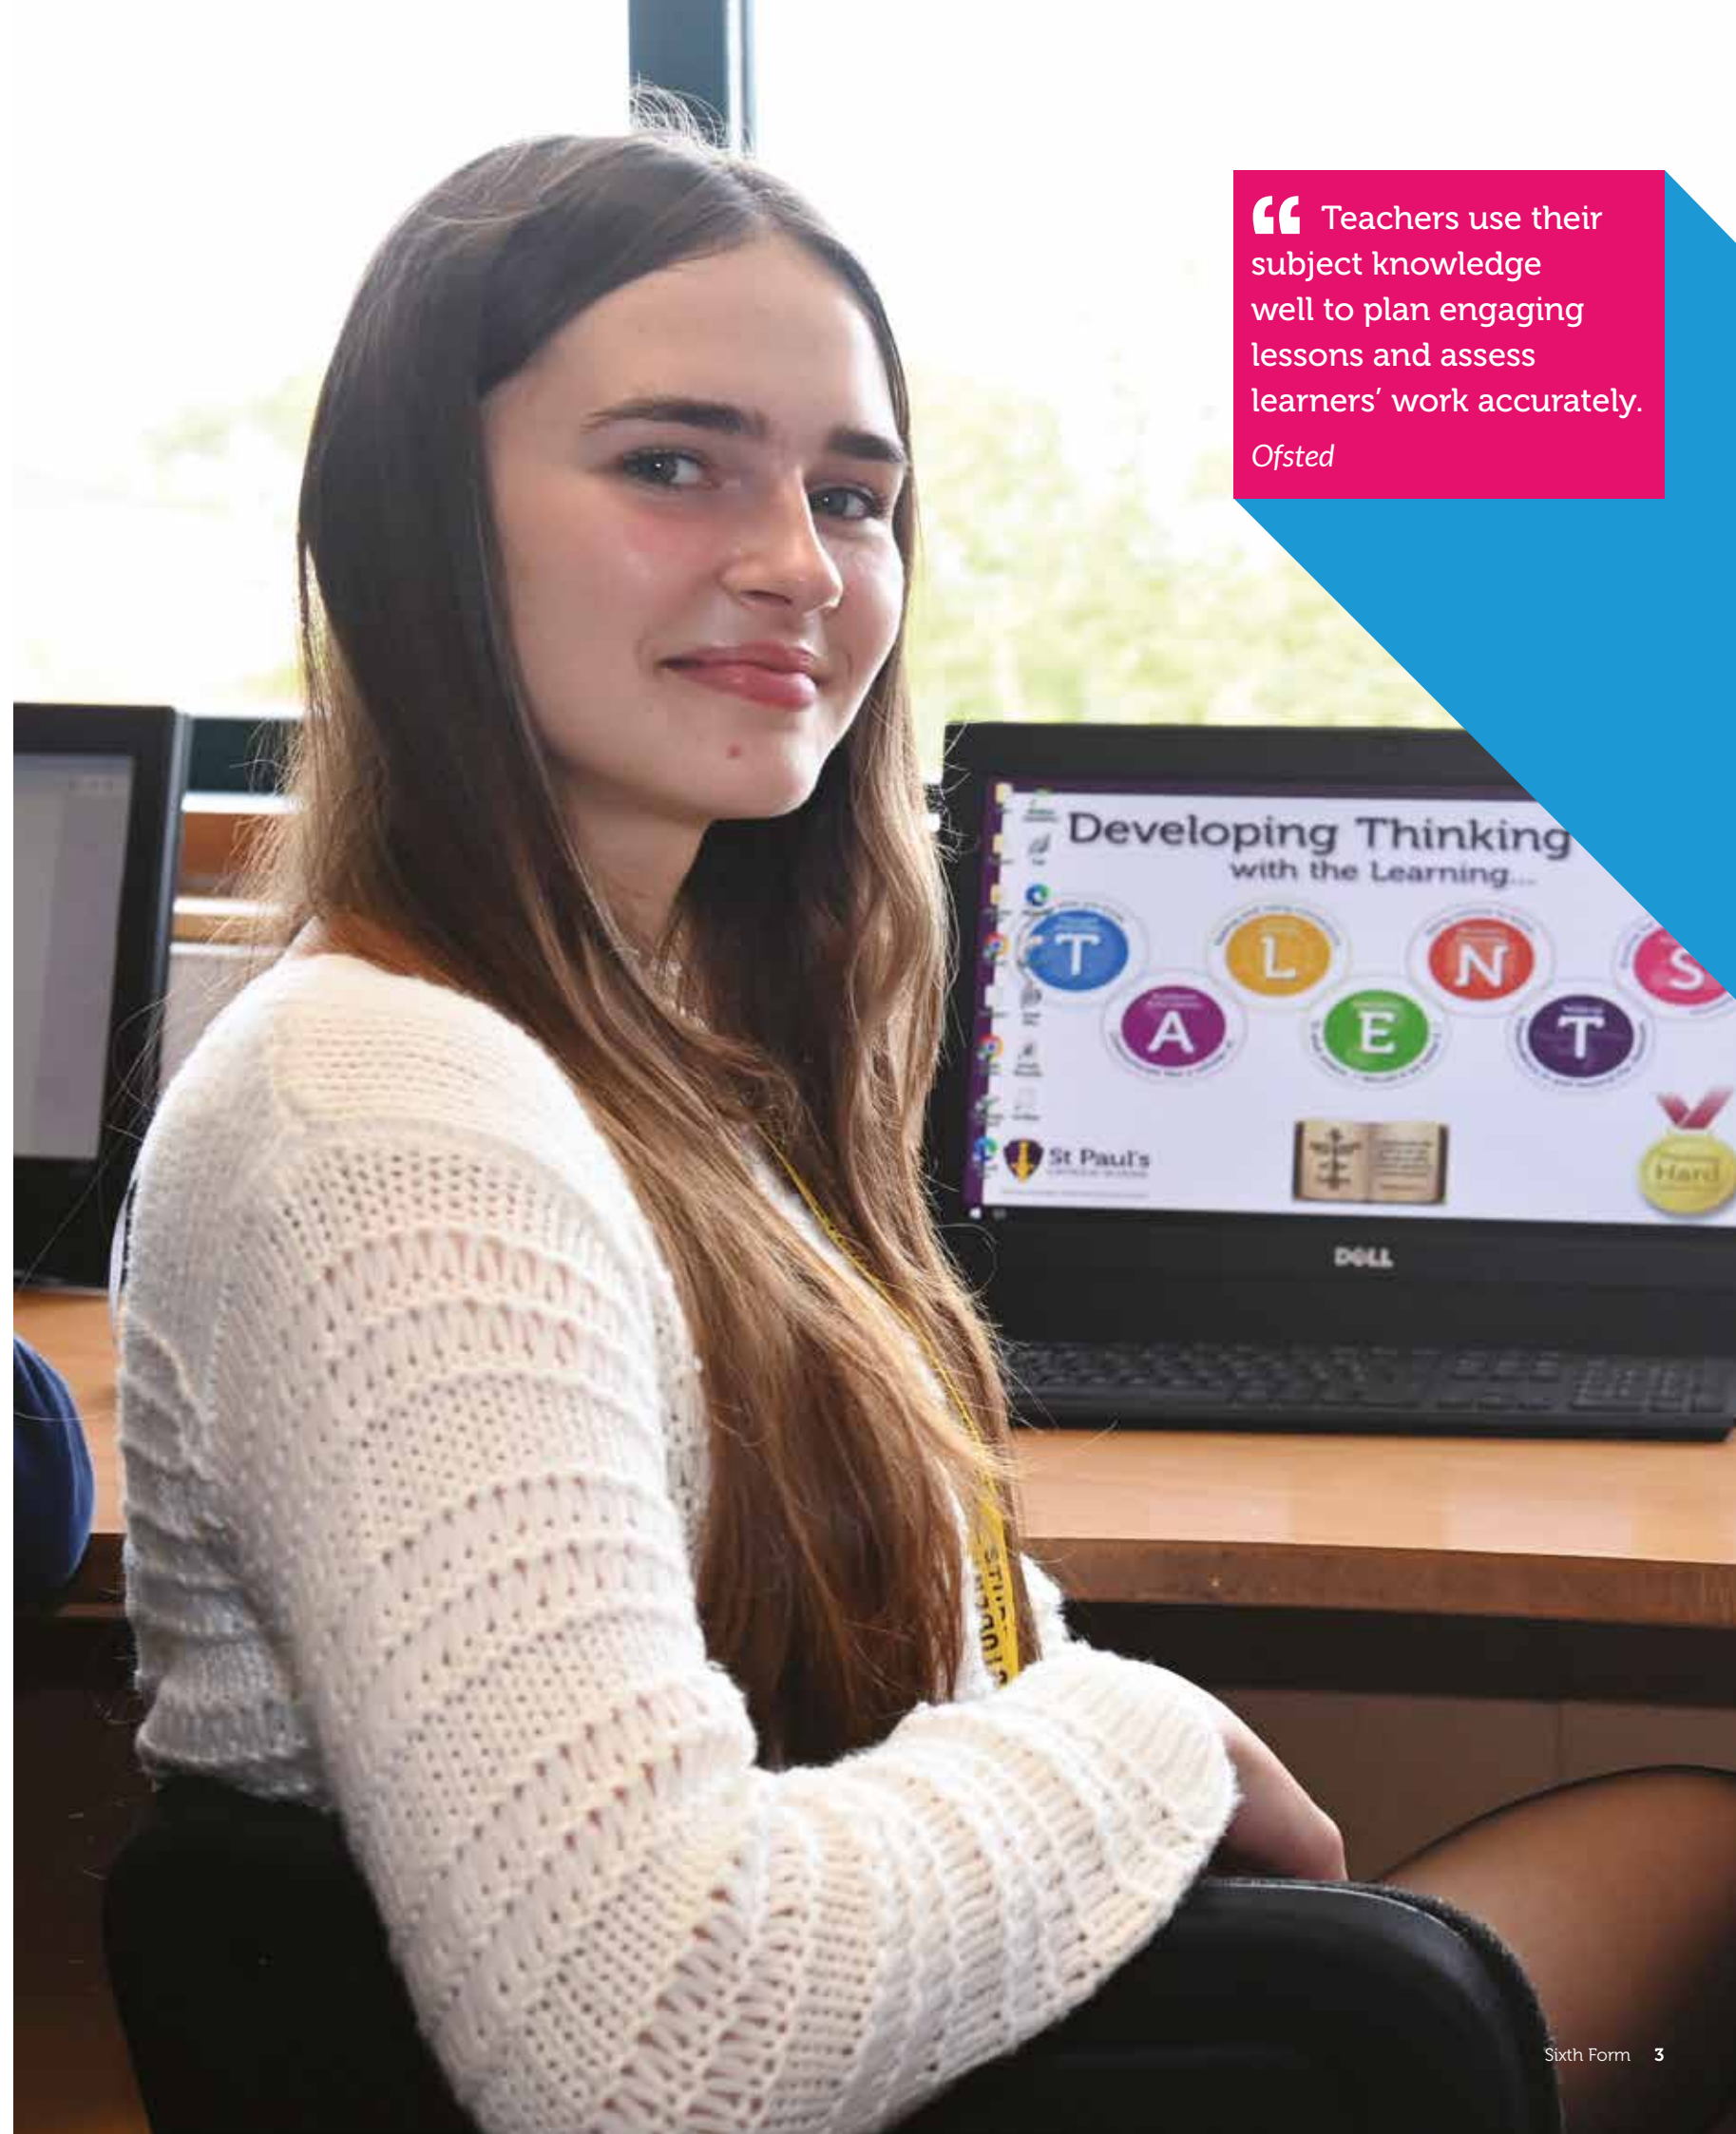

St Paul's Sixth Form made me feel confident that I could go on to achieve my aspirations. With supportive, friendly staff alongside a wide choice of options and extra-curricular activities, I was given the best preparation possible for life after Sixth Form and am very grateful to everyone at St Paul's for supporting me on my journey to university and for a memorable two years
Shannon Connolly

The promotion of leadership opportunities is essential to our aim and our Sixth Form Student Leader Programme is extremely popular and effective.

We empower our students to be role models who live out their faith through service, demonstrate integrity and compassion in leadership, and contribute positively to the world around them. We nurture a community where everyone learns not only to succeed, but to serve with purpose and humility.

“ Teachers use their subject knowledge well to plan engaging lessons and assess learners' work accurately.

Ofsted

“ In the Sixth Form, learners make good progress as a result of good teaching and effective leadership.

A Diverse and Extensive Curriculum

My teachers have tailored their teaching to my individual needs, which has meant that I am confident I will achieve the best possible grades.

Demi Makis-Colman

Learning at St Paul's is an exciting journey of discovery, brought to life with innovative teaching and imaginative use of resources.

The very best of St Paul's is that our extensive range of academic and vocational courses enables us to tailor the curriculum to meet the needs of our students.

You will find at St Paul's, alongside the more traditional A-level courses, a range of "minority" subjects such as: Music, Computer Science, all four Modern Foreign Languages (including Italian) and a wide suite of vocational qualifications at Level 2 and 3.

The breadth of our curriculum ensures we are able to provide personalised learning plans for all of our students.

Quality Teaching and Learning

All of our Sixth Form programmes are delivered by highly qualified and experienced teachers who are specialists in their field.

Progress through and beyond Sixth Form

We help all students to achieve their ambitions. The vast majority of our students want to progress to university, with many also applying for degree level apprenticeship positions. Whatever pathway students are considering, we offer sophisticated programmes of support and mentoring to achieve these goals.

The wide range of courses available allowed me to study Business, French and Maths so that I was able to apply to top universities to study International Business. On top of this I was able to become involved and lead a number of events outside of my academic studies which have not only made me more prepared for my future but has made me attractive to future employers.

Tobias Scoble

An increasing number of our students aspire to high level apprenticeships and we have an extremely well developed vocational programme to facilitate this.

Every student has an academic mentor with whom they meet each week to support their academic progress. Our young people learn not only how to study well but how to think critically, persevere, and grow in resilience. Our Sixth Form will act as a stepping stone to each student's future destination.

Adding value through enrichment

In an ever changing and increasingly competitive world, young people need to develop the skills needed for great careers. At St Paul's we offer a fantastic range of experiences which enable young people to 'add value' to themselves and prove to universities and future employers that they have a wealth of transferrable skills that make them 'stand out from the crowd'.

All students undertake at least 200 hours of enrichment during their time in the Sixth Form including: sector related work experience, Duke of Edinburgh Gold, voluntary work within the wider community, Future Learn online courses and the debating society, to name a few.

“ A significantly higher proportion of learners went to university than the national average. There was also an increase in the number of learners who attained places at Russell Group universities. *Ofsted*

“ The school has invested in the Extended Project Qualification as well as the Duke of Edinburgh's Gold Award to provide learners with alternative ways to develop key skills and aptitudes. *Ofsted*

Care of Students, Advice and Guidance

“Learners in the Sixth Form are well prepared for life in Modern Britain.”

Ofsted

“

There was always support available for you but, especially with the UCAS application process where everything was completed to the highest standards and done really quickly. I am really proud to say that I was a student of St Paul's as this school has changed me and helped to open my eyes and guide me in the right direction I want to go in my life.

Norbert Szymanski

We have a large, specialist Sixth Form team available to provide support and pastoral care for all students: transition to Sixth Form is a significant stage in a young person's life.

We have a team of specialists available to guide all of our students whether their aspirations lie with Oxbridge, Russell Group universities or apprenticeships.

St Paul's Sixth Form is well known for the fact that we genuinely care about all students.

Every member of our community is recognised as unique, and equally worthy of praise and support. Each student has a Mentor and a Form Tutor, supported by a Year Leader and Chaplaincy Lead.

The Form Tutor provides an important contact for parents and carers as their role within school allows them to develop an all-round knowledge and understanding of the students in their daily care. The Mentor meets weekly with students to discuss and advise on academic progress.

Service and Spiritual Development

We are a Catholic School but you do not have to be a Catholic to join our Sixth Form. However, we do embody the values of our school motto: "Love, Serve, Do the Best that is Possible."

“

Learners in the Sixth Form are closely involved in the life of the school because they volunteer their time as student ambassadors.

Ofsted

Our students are encouraged to lead through service, guided by a deep sense of responsibility to others. We believe that time spent serving others enriches and benefits our students and the wider community as well as being valuable to the individual. As a result, we offer many opportunities within the community and beyond.

St Paul's has a large area dedicated to the Sixth Form including an independent study centre with access to our dedicated Study Supervisor, as well as collaborative learning spaces such as the library. All students have access to ICT for study purposes, with some subject areas including Art and Design, offering specialised study support areas for those who study these courses.

“ The school promotes pupils' spirituality very effectively.

Student Life and Success Stories

Maureen Onwunali

Having gained A in Politics and A* in Sociology, English Language and Literature and her EPQ, Maureen is currently studying Politics and Sociology at the University of Warwick.

Speaking about her time at St Paul's, Maureen said: "What I particularly liked about continuing my Sixth Form studies at St Paul's was the fact that attending the school prior to the Sixth Form facilitated a rapport between myself and my teachers. I felt like I had more of a say in terms of what learning styles worked best for me, who to contact for support, and which resources were available to me. I felt like I was already an established member of the St Paul's community."

Jessica Savage

Jessica is studying History at the University of Liverpool having gained an A* in English Literature and As in Economics and History. Jessica said: "I did better than I expected as I found the exams quite hard and the A* in English was a surprise. I've loved being at St Paul's and I'm really glad I stayed on for Sixth Form here. The teachers have been really supportive and it is a very special place."

Diego Jaumandreu Ondaro

Diego is doing a Higher Level Apprenticeship at Deloitte UK having gained A* in Spanish and Computer Science, A in Mathematics, B in Economics and A* in his EPQ.

He said: "A great aspect of St Paul's is the exposure to so many different cultures and backgrounds. It has helped me understand the world a little bit better, and it has done wonders for my career, such as allowing me to easily work with a lot of different people and build deep connections. The support given by my mentor at St Paul's has allowed me to better track my progress, have accountability and ultimately achieve my goals."

Callum Morris

Callum achieved A* in Mathematics, Design Engineering and his EPQ and A in Physics and is studying Aerospace Engineering at the University of Manchester. He has already signed up for his Masters degree.

Reflecting on his time at St Paul's, Callum said: "Looking back at my early time in St Paul's, it was clear the network of support available to me was second to none. This support extended through my A-levels and made me a much more academically competent person. I really feel I was treated more as a peer than a student."

Not only do the staff provide an exceptional education, they are also more than willing to offer support and external guidance outside of the classroom. They truly go the extra mile for their students.
